Improvements.
When President Wm. H. Ernest of the East End Suburban Citizens' Association called the faeeting to order last night shortly after 8 o'clock, at Holland's Hall, it was evident to the casual observer that every member present meant business, and also meant to stick together until their section was recognized in a substantial way by the Commissioners.

The principal interest centered around the report of the executive committee, a synopsis of which appeared in last night's Star. The chairman of the committee, Mr. Ernest, addressed the meeting and urged the mem-bership to stand as a unit in favor of se-curing substantial recognition. The report of the committee was accepted.

Mr. Chas. R. Talbert, chairman of the

committee on police, fire and lights, spoke of the dangerous condition of Mount Olivet road from Bladensburg road to 12th street northeast, owing to the absence of lights and the immense travel over it, now that Bladensburg road is closed for repairs. He thought at least twenty naphtha lamps should be erected along the road in ques-tion and on method of the Welter air comtion, and on motion of Dr. Walter als com-mittee was instructed to make a demand for the same. He also urged that officers from the ninth precinct use their utmost endeavor to maintain order among the crowds coming in nightly from the junc-

and file the same with the Commissioners.
The secretary read from the last annual report of President C. C. Lancaster a statement showing an appropriation of \$3,400 for electric lights in the northwest section, and it was decided to have the northeast suburbs lighted in the same manner.

The question of indorsing the application

of the butterine factory at Langdon for a permit to extend a water main along Bladensburg road from Mt. Olivet cemetery to that point was brought up by Mr. Chas. R. Talbert, but it was stated by Mr. Samuel R. Coombs that the company had abundant water from two artesian wells, and he thought they had abandoned the project of getting Potomac water; hence the matter

was dropped.

In its report the executive committee recommended the establishment of a park at the intersection of the Benning and Bla-densburg roads, and this brought on a heated discussion, participated in by Messrs. Wilt, Raymond, Clark, Talbert, Holland, Coombs and others, the result being that it was decided to abandon the idea of asking for a small park, and in lieu thereof to ask that the entire property of the Graceland Cemetery Association—thirty acres—be pur-chased by the government for park pur-poses, and that Maryland avenue be exended through its entire length, so as to provide for an uninterrupted highway to all the property beyond the cemetery tract. The executive committee was instructed to go over the subject thoroughly and amend its demands accordingly.

On motion of Mr. A. M. Raymond, consideration of the constitution was post-poned for two weeks, at which time the association will hold its next meeting.

CHINESE IMMIGRATION.

Labor Union Favors an Ex At the meeting of the Central Labor Inion held last evening at Typographical Temple resolutions were adopted favoring legislation prohibiting Chinese immigration to this country after the expiration of the law now in force. The resolutions recite that, "With the coming of May, 1902, the act passed by Congress known as the Chinese exclusion act will have passed from the statute book by limitation.
